Enroll in a Course

Student	System	JsonDatabaseManager

- Browse Courses
- Select Course
- Click Enroll
- Check Enrolement Status
- Already Enrolled? — Yes / No
- Register Enrolement
- Confirm Enrolement

This activity diagram outlines the enrollment process for a student selecting a course. It begins with checking enrollment status and browsing available courses, followed by confirming enrollment and registering it in the system via the JsonDatabaseManager. The diagram highlights decision points and interactions between the Student, System, and database components.
